

Chapel Works, Old Street
Ludlow, Shropshire SY8 1NR
Tel: 01584 871800 Fax:01584 877770
Internet: occamsystems.co.uk

Directions From M5

Take the exit off the M5 at Junction 6, Worcester North, and follow the A449 (second exit if coming from the south).

At the end of the dual carriageway (about 2.5 mile) turn right at the roundabout to continue on the A449.

After a further 2 to 3 miles take the left turn into Ombersley and from there left at the roundabout following the A4133 towards Tenbury.

After a mile you will go over the river Severn and continue into Holt Heath, where you should turn right at the T junction to continue on the A443 towards Tenbury.

Follow the A443 through Great Witley and all the way to Tenbury (10 miles). It will become the A456 on the way. Take great care as the roads have many sharp bends.

Continuing on the A456 past Tenbury for a further 4 to 5 miles you will arrive at the junction with the A49. Turn right towards Ludlow.

Take the first Ludlow turn after about 3 miles and follow the road down into the town where you will go over a bridge and bear immediately right to follow the edge of the river Teme.

After 250 metres the road turns to the left and up the hill. This is Old Street.

Chapel Works is most of the way up the hill, on the right, set back slightly from the road behind a brick wall with iron railings. You will be able to see the sign on the front of the building which says Chapel Works once you are level with the building.

Please park at the rear of the building. Walk back 'round to the front of the building, past the steps to the shop, and to the entrance on the left hand side of the building. Our main office is on the top floor.
